

The Supreme Court has upheld your 2nd Amendment rights.

Exercise them safely and responsibly.

The Supreme Court's historic affirmation of the 2nd Amendment means D.C. residents just like you, from teachers, doctors and plumbers to restaurateurs, businesspeople, firemen and store clerks, can now enjoy the many aspects of firearm ownership – safely and responsibly, with help from the National Shooting Sports Foundation.

NSSF is the voice of the firearms industry. For 40-plus years, our efforts have encouraged firearm

safety, education and responsible enjoyment. From safe storage initiatives like Project ChildSafe[®] to introductory handgun programs like First Shots[®], we provide opportunities for participation in and understanding of the shooting sports so many are so passionate about.

For them, and the millions more who are interested in the shooting sports, we look forward to sharing how we can all be “shooting for more” safety and responsibility.
